Cambria ergonomic adjustment features

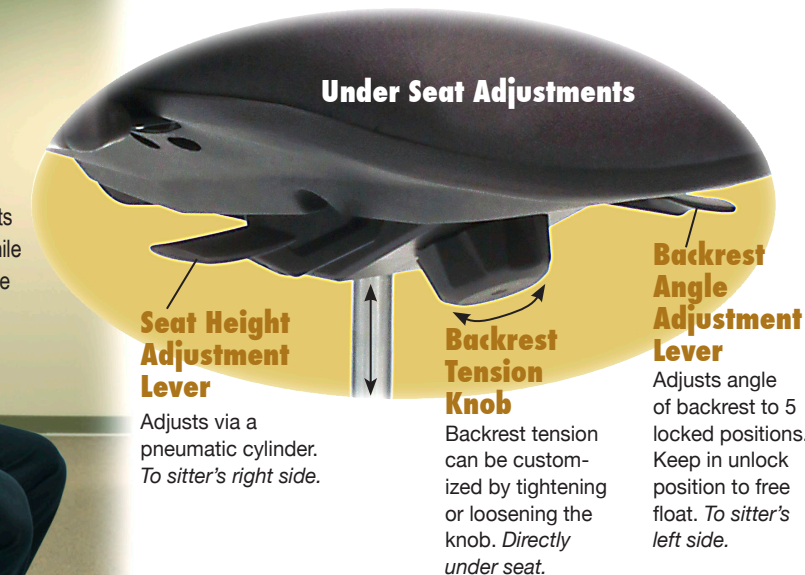

Adjustment features demonstrated apply to both the Cambria Task Chair and the Cambria Counter Height Task Chair.

Chrome Foot Ring

Adds comfort and stability to sitter while seat position is higher and feet do not meet the floor.

All chair adjustments should be made while feet are firmly on the floor or foot ring.

Under Seat Adjustments

Seat Height Adjustment Lever

Adjusts via a pneumatic cylinder. To sitter's right side.

Backrest Tension Knob

Backrest tension can be customized by tightening or loosening the knob. Directly under seat.

Backrest Angle Adjustment Lever

Adjusts angle of backrest to 5 locked positions. Keep in unlock position to free float. To sitter's left side.

Foam Padding

2.5" thick foam padding adds comfort and support on seat back and seat pad.

Armrest (selected styles)

Adjust lever vertically with a range of 3".

Backrest

Contoured polypropylene exterior shell encloses a plastic inner shell with integral contours for lumbar support.

Back Height Adjustment

Adjusts up to 4" by sliding lever located on the rear side of the backrest stem.

Seat Height Adjustment

Seat

A complex curved profile for ergonomic support and a waterfall front.

Optional Soft Casters for Hard Floor Surfaces

Minimizes slippage on hard flooring. Optional casters are installed when ordered on same purchase order as Cambria Task Chair.

Castors

Dual-wheel, hooded type constructed from durable, fracture resistance charblack nylon with steel axles and stems. Optional soft casters can be substituted.

Chair Base

One piece, five star 27" construction is durable, wear resistant and reinforced.
